# YEAR 4

## TRY DOMREMY FOR A DAY 2026

Domremy College opened its doors to the next generation of learners on Wednesday 6 May, for our highly anticipated Try Domremy for a Day event. We were delighted to welcome over 100 Year 4 students from twenty-two different primary schools, providing them with an exciting "sneak peek" into the diverse opportunities that await them in high school. Supported by our dedicated staff and a team of outstanding student mentors, the visiting students spent the day immersed in hands-on learning.

The day's program was packed with variety, allowing students to rotate through several specialised sessions. Our brilliant TAS coordinator, Ms Ricciuti, led a creative workshop where students crafted custom polymer clay bookmarks, turning raw materials into handcrafted keepsakes. Mrs Silva and Ms Malloy turned Nagle Hall into a hub of high-octane energy with Drama Games designed to build confidence. Over in the Theatre, Mrs Smit facilitated the "Amazing Race," a fast-paced tactical challenge that saw students racing against the clock to crack codes.

Academic curiosity was sparked as students moved from classrooms to professional laboratories. Ms Liistro Mathematics session transformed numbers into a game of strategy and logic, while Ms Lau's group put on lab coats to conduct experiments that sparked wonder. History also came alive as Mrs Bird stepped back in time, transporting students to the Valley of the Kings with a Tutankhamun discovery activity.

Mr Moran led a dynamic English session, whilst Mrs Clarke and Mrs Vari tapped into the students' creative sides with an exciting Carnivale mask-making activity. On the Circular Drive, our very talented Visual Arts Coordinator, Ms Smyth, helped students unleash their inner superheroes, drawing large-scale masterpieces directly onto the pavement.

Ms Angilletta coordinated an energetic sports session focused on teamwork and agility, and Mrs Ganderton had brains working overtime with a mini Aerospace Engineering challenge, where students designed parachutes to ensure a safe landing for their "egg-stronauts." Mrs Morizzi led a beautiful activity in our College Chapel, exploring Nano Nagle and the significance of light in our Presentation Charism. Students reflected on how they can be a source of light for others before crafting their own lanterns, symbolising service, faith, and hope.

We are incredibly proud of our student helpers who ensured our visitors felt at home from the moment they arrived. We also extend our sincere thanks to the staff for their passion and hard work in making the event such a resounding success.

We look forward to seeing these bright faces again in 2029 as they begin their Year 7 journey as the Graduating Class of 2034!
