

The Parent Pulse: Social Media and Our Children

From 10 December 2025, age-restricted social media platforms will have to take reasonable steps to prevent Australians under the age of 16 from creating or keeping an account.

Your voice matters. By completing this survey, you are helping Catholic School Parents Australia (CSPA) understand the real experiences, challenges, and hopes of families in our Catholic school communities. The insights gathered will directly shape CSPA advocacy with Catholic Education authorities and Government, ensuring that the needs and perspectives of parents and carers are heard at the highest levels.

Your input will guide CSPA in championing initiatives that strengthen learning, wellbeing, and partnership between home and school.
