

Kids Giving Back

Greetings, I am Kerstan from Homeroom 804 and my brother, Kurtis, in Homeroom 702, was involved with Kids Giving Back last year.

I would like to talk about what this program is and how it leads this school to a better place.

The Kids Giving Back program is a program where kids volunteer for young people aged 5–18 by helping to cook meals for the needy within our society. Their mission is to create a better, more accepting society based on empathy and understanding.

By giving out freshly cooked food to change how people can eat, this makes a positive impact on both the person who received it and the person who gave it, as it is a lenient action that fulfills the duty of God as a Marist Catholic school to help and care for the needy.

I really enjoyed being part of Kids Giving Back. Knowing that we can make people's days feel just a bit better by giving them freshly cooked meals upon making them. This fulfills my duty to God as a Catholic person and also inspires other people to be the ones who can give back to people with food.

Remember: Just one kind action can change the way people live by boosting their empathy and understanding.
